

## # Autonomous Repo■PDF Pipeline – Summary

This short report demonstrates the four■step autonomous pipeline that:

1. \*\*Collects\*\* data (normally a web■search).
2. \*\*Summarises\*\* the collected information.
3. \*\*Generates\*\* a PDF report from the markdown summary using `pandoc`.
4. \*\*Packages\*\* all artifacts into a ZIP archive.

All steps are fully automated and the results are sent to you via Telegram.
